More info: [http://udall.gov/OurPrograms/Scholarship/Scholarship.aspx](http://udall.gov/OurPrograms/Scholarship/Scholarship.aspx)
Institutional Endorsements for National Awards and Fellowships

Students may request an institutional endorsement for national awards and fellowships, other than the Fulbright, Goldwater, and Truman, through the Honors College. To request an endorsement, students should submit copies of all application materials, including letters of recommendation and required essays, no later than 30 days prior to the published deadline for the award. Please include your student ID and current contact information when submitting the application materials. Letters of recommendation should be substantive reflections on the student that emphasize their competitiveness for the award. The letter of endorsement, in most cases, will be a short statement that indicates the student, based on assessment of application materials, has the support of the institution. It should not substitute as a letter of recommendation. Preparation of materials for major awards takes months of preparation, and application materials should reflect this high level of preparation. All requests will be considered by a committee made up of faculty and administrators. If you have questions about this process, please contact Kristi Meyer, Honors College, Senior Director for Special Programs and Student Development, at Kristi.Meyer@utsa.edu or 210-458-8679.
